

Win Team Fun

Think | Design | Code | E-Market

### WTF Limited

We empower you with forward-thinking business and marketing strategy.

We craft beautiful and advanced websites and apps to vov the love of your audiences.

We channel your brand message to the market segment that is relevant and convertible to you.

We listen to your problems, and deliver you solutions.

### Our Services

#### ★ Market & Product Consultation

We help our clients define product design applicable to their target segments. We validate the design through market research and interviews. Finally, we deliver a concrete roadmap and product specification.

#### ★ Design & Implementation Services

From mockup to detailed UI/UX design to actual application development, we offer implementation services to get our client products out of the door on budget and on time. We cover websites, web apps, mobile apps and games.

#### ★ Infrastructure Design & Deployment

Hosting production apps in a fault-tolerant and highly scalable fashion is hard. Our infrastructure team design and implement solutions that are cost-effective, highly available, and elastically scaled.

#### ★ Online Marketing Planning & Execution

Instead of being tactical frenzy, we plan coherent strategy so our clients deliver their core branding messages, consistently and effectively. We cover email campaigns, keyword SEO, and social media marketing.
